

# Visible Columns dialog box in History view

## Description

A short description of the action taken. For each action, the description includes a number at the end of the text indicating the number of detail items listed for that action. You can expand an action to view its details.

## User Name

The logon name of the user who initiated the action.

## Time

The date and time that the action or process was initiated.

## Severity

Indicates whether the message is for information only, or is an error or warning.
