

Visible Columns dialog box in Input Files pane

Primary File

The name of the input file

Files

The number of input files in the row

Size

The size of the file.

The file size is listed in KB if the file is less than 1 MB, or in MB if the file is 1 MB or more.

If it is not a PDF file, the value is **N/A**.

Modified

The date and time that the file was last modified

Created

The date and time that the file was created

Kind

The file type—for example, **Layered PDF**, **PostScript** or **PDF**

Location

The path to the file

<process template>

The name of the process template group that was used to process the file and the processing status.

This column automatically appears in these panes:

- **Input Files** pane when an input file is processed
- **Pages** pane when a page is processed
- **Imposition Plans** pane when a surface is processed

This is known as a dynamic column. More than one dynamic column may appear if more than one process template is used.
