

Visible Columns dialog box in System History

Description

A short description of the action taken. For each action, the description includes a number at the end of the text indicating the number of detail items listed for that action. You can expand an action to view its details.

User Name

The logon name of the user who initiated the action.

Time

The date and time that the action or process was initiated.

Severity

Indicates whether the message is for information only, or is an error or warning.
