

Integrating Digital Print client software with Prinerger Workshop

This procedure explains how to integrate Digital Print client software with Prinerger Workshop.

1. Install the software on the client computer.
See the documentation provided with the software or the *Prinerger Digital Print Installation and Configuration Guide*.
2. In Prinerger Digital Direct, go to **Tools > Options JDF Editors tab**.
3. Repeat this procedure on each Prinerger Workshop client from which you want to launch the digital print software.
