

Deleting a size

Important: Some of the options described in this topic may not be relevant to Workshop in this version of the Prinergy software.

1. In Workshop, from the **Tools** menu, select **Setup**.
2. In the left pane, click **Size**. A list of the available sizes is displayed in the center pane.
3. In the center pane, select the size that you want to delete, and click the **Delete**  button.
4. On the toolbar, click  **Save**.
