

Selecting with a mouse click

The list of selected items appears in the Properties Editor window arranged by type and color.

1. To select the first item, click an object in the Acrobat window.
A selected item is highlighted with the color you specified in the Adobe Acrobat Preferences menu. In addition, an object is outlined and overlaid with a pattern of bright dots.
2. To add to the selection group, hold down Shift, and click another item.
3. To select objects below the visible object, click on an object, and then:
 - In the Mac OS, press Option
 - In Windows, press Control, and click the object again

The object below is selected. Continue through the layers until the object you want is selected.

4. To remove a selected item from a selection list, hold down Shift, and click the item.
5. Repeat the steps until you are satisfied with your selection list.
