

Adjusting spot color angles

By default, spot colors are mapped to the **Default** angle.

To add or delete a spot color, perform one of the following actions:

- Add a named spot color to the list.
 1. Click **Add**.
 2. In the Add Separation dialog box, in **Separation Name**, type the name of the spot color exactly as it appears in the input file.
 3. In the **Separation Angle** list, select a screen angle.
 4. Click **OK**.
- Delete a spot color from the list
 1. In the **Separation Angles** area, click the spot color that you want to delete.
 2. Click **Delete**.
