

Using Prinergy Preflight Locator

The Kodak Prinergy Preflight Locator software is a Kodak plug-in for the Adobe Acrobat software that is used to link directly from the PDF Preflight report to the exact location of the problem in the preflight document. The Kodak Prinergy Preflight Locator will work with Adobe Acrobat 8 or later.

For information about how to preflight pages and open the PDF Preflight report, see the *Prinergy Workshop User Guide*.
