

# PDF Trap Editor action toolbar

The action toolbar is the upper horizontal toolbar in the Properties Editor.

**Note:** This toolbar is visible in the Properties Viewer (displayed in a PDF Trap Viewer session), but the buttons are disabled except for the **Delete all traps** button.

Only one of these buttons can be used at any time:

| Tool                  | PDF Trap Viewer | PDF Trap Editor |
|-----------------------|-----------------|-----------------|
| Trap page             |                 | X               |
| Trap selection        |                 | X               |
| Delete all traps      | X               | X               |
| Delete selected traps |                 | X               |
| Keep away all objects |                 | X               |
| Merge path            |                 | X               |
| Delete path           |                 | X               |
| Undo                  |                 | X               |
| Redo                  |                 | X               |
