

Opening all files for a job

To open all preview files for a job:

1. From the **File** menu, select **Job Browser**.
The Job Browser dialog box appears. This dialog box displays either the last contents of the scan or the standard dialog box for choosing a folder.
2. If the dialog box displays the contents of the last folder opened, perform one of the following actions:
 - Select the signature you want to view, and click **Open**.
 - Select a different folder by clicking **Rescan**.
