

Editing custom colors

To edit a custom color:

1. From the **Edit** menu, select **Custom Colors**.
The Edit Custom Colors dialog box appears.
2. In the list of custom colors, select the color that you want to edit.
3. Click **Edit**.
4. Use the Color Wheel, Color Sliders, Color Palettes, Image Palettes, or Crayons to change the definition of the custom color.
5. Click **OK** when you are finished.
