

# Plug-ins for Adobe Acrobat and other tools

Prinerger Workflow may include the following Kodak plug-ins for Adobe Acrobat and other tools:

- Kodak Prinerger PDF Compare software—enables you to display differences between the original and revised pages within two versions of the same document.
  - Kodak Prinerger PDF Merge software—enables you to combine unique content from different versions of the same document into a new output document, while preserving common objects, such as traps and screens .
  - Kodak Prinerger PDF Trapper software—a vector-based trapper that is available in these versions:
    - Kodak Prinerger Trap Viewer software—lets you check selected trap and object properties in already-refined and trapped PDF pages in Adobe Acrobat. You can also delete all traps
    - Kodak Prinerger Trap Editor software— lets you trap whole pages or selected objects, edit existing traps, and add traps to a refined and/or trapped page in Acrobat. Includes Trap Viewer functions.
    - Kodak Prinerger Advanced Trap Editor software—lets you set trap geometry and create keepaway traps to a refined and/or trapped page in Acrobat. Includes Trap Viewer and Trap Editor functions. Contains advanced features used mainly by packaging printers.
  - Kodak Prinerger DotShop software—lets you view, select, and edit halftone screening in a PDF file.
  - Kodak Prinerger Geometry Editor software—lets you visually set the trim size for a page in Adobe Acrobat.
  - Kodak Preflight Locator—lets you link directly from the PDF Preflight report to the exact location of the problem in the preflight document.
  - Kodak Distiller Assistant software—lets Acrobat Distiller users set options within a PDF file.
  - Kodak Color TIFF XT software—solves the background colorized TIFF problem using PostScript 3 technology. XT is necessary only with QuarkXPress versions 4 and 5, not version 6.
  - Kodak PDF File Editor—lets you use Adobe Illustrator to edit refined PDF files.
