

Displaying and hiding dimension lines

1. To work with the dimension lines, perform any of the following actions:

To	Do this
Display or hide the trim lines on a page	In the Info panel, select or clear the Trim check box.
Display or hide the media box on a page	In the Info panel, select or clear the Media check box.
Display or hide the crop line on a page	In the Info panel, select or clear the Crop check box.
Display or hide the art box on a page	In the Info panel, select or clear the Art check box.
Display or hide the bleed line on a page	In the Info panel, select or clear the Bleed check box.

Note: You can change the default color of the dimension lines. To change the color, in the **Info** panel, right-click the required dimension line and select a color from the color palette.
