

Viewing review and approval comments

You can view any comments that a user associated with the task status when the user set the status for a task in the **Elements** view, **Tasks** view, or Smart Review.

Requirements: You must have a project role that includes the View All Annotations & Status right.

1. To view other user's comments, in the **Projects, Libraries** view, under **Projects**, expand the required project.
2. Expand the **Tasks** list.
3. Select a task that is assigned to more than one user.
4. In the right pane, click an element.
5. In the lower pane, you can view a list of all the assigned users, the status of their task, and their comments.
