*** **Microsoft Edge:** New version of the Microsoft Edge based on Chromium must be manually downloaded and installed. Microsoft Edge 44 and earlier versions are no longer supported.

**** **Windows 10:**

- While standard support for Windows 10 from Microsoft is scheduled to end in 2025, customers may choose to purchase extended support directly from Microsoft. Windows 10 has been qualified as a client operating system for use with INSITE Prepress Portal and INSITE Creative Workflow.
- INSITE Prepress Portal and INSITE Creative Workflow operate on the World Wide Web, and using them on Windows 10 without Microsoft support can leave your system vulnerable to security threats and unauthorized access. To help protect your data and ensure continued reliability, Kodak strongly recommends upgrading to Windows 11 as soon as possible.
