

Viewing detailed page information

For a page, view the transaction history, correction request reports, whether the page belongs to a page group, and, if you have Kodak Matchprint Virtual installed, the color target. With a Prinergy Workflow, if the page has been through preflight processing, you can read preflight information.

1. Locate the job, and click the job name.
The job's pages appears.
2. In the the lower-right corner, click the **Gallery View** button  or the **List View** button .
3. Locate the page that you want, right-click it, and from the menu that appears, select **Page Information**.
4. When you are finished, close the page information window.
