

Viewing files

You can change the file that you are viewing in Smart Review.

1. In the top-right area of the **Files** pane, in the **Files** menu, select one of the following view options:
 - **Filename List**
 - **Thumbnail List**
 - **Thumbnail Grid**
 - **Spread List**
2. Click the name or thumbnail of the file that you want to display.
3. If you are viewing a file, click **Previous Page**  to display the file before the one currently displayed, click **Next Page**  to display the file after the one currently displayed, or type the page number in the box to go directly to a specific page.
