

Installing InSite Gateway

InSite Gateway installer is available on [Installer files \(v11.5\)](#) page and also on Partner Place article #76545.

Note: You have to run the installer on a Windows or Mac computer with Adobe InDesign or Illustrator already installed. Otherwise, the InSite Gateway installation will fail.

For Windows computers

1. Unzip the installer **.zip** file.
 2. Double click the **.msi** file.
 - *KODAK InSite Gateway Setup* window opens.
 3. Accept the terms in the License Agreement and click *Install* to proceed.
 - Installation starts and completes.
 4. Click *Finish*.
-
- Uninstall
 1. Double click the **.msi** file.
 - *KODAK InSite Gateway Setup* windows opens.
 2. Click *Next* to proceed.
 3. Click *Remove* option. Click *Remove* to proceed.
 4. Click *Finish*.

For Mac computers

1. Double click the installer **.dmg** file.
 - *KODAK InSite Gateway* folder opens
 2. Double click the **.pkg** file.
 - *Install KODAK InSite Gateway* window opens.
 3. Click *Continue*.
 4. Accept the terms in the License Agreement and click *Continue* to proceed.
 - Click *Agree* to continue.
 5. Click *Install* to proceed.
 - If asked, enter administrator user credential to proceed.
 - Installation starts and completes.
 6. Click *Close*.
-
- Uninstall (Installer does not have a functionality to uninstall. You would manually remove files from the system to uninstall the extension.)
 1. Navigate to *Library > Application Support > Adobe > CEP > extensions* folder

2. Locate the folder called ***com.kodak.gateway.uploader***
3. Delete the folder
