

InSite Gateway 11.5 new features

New features and enhancements

This section lists features and enhancements that were added in this release.

Works with INSITE Prepress Portal version 11.6

The 11.5 version of InSite Gateway works with INSITE Prepress Portal 11.6.

PDFs output for multi-page file is named with "_"

The PDF output files saved locally are named *[filename]_[page number]*; previously named with "-" which may have caused issues on external entities.
