

Where to find ICC profiles

Monitor ICC profiles are stored on the Mac computer at <HardDrive>/Users/MV_User/Library/ColorSync/Profiles.

Note: For the MV_User, it might be necessary to right-click and select **Show View Options** to turn on **Show Library Folder**.

Note: For more information about setting up and configuring Matchprint Virtual, see the *Matchprint Virtual Best Viewing Practices Guide* and the *Matchprint Virtual for InSite Creative Workflow Quick Start Guide* at [Workflow Documentation](#).
