

Qualified measurement instruments

ColorFlow Software has qualified the creation and measurement of charts for the following instruments:

- X-Rite i1Pro 2 and i1Pro 3 Spectrophotometers (**Note: i1Pro 3 Plus** Spectrophotometer is **NOT** qualified, and first-generation i1Pro (UV or non-UV) is EOSL.)
- X-Rite i1iO Table with i1Pro 2 or Pro 3 Spectrophotometer
- X-Rite iSis and iSis2 Spectrophotometer
- X-Rite iSis and iSis2 XL Spectrophotometer
- Konica Minolta Myiro-9 Spectrophotometer

Note: If you encounter connectivity issues with the X-Rite device on the Mac, you may need to download the latest X-Rite XRD Software Update for Mac. [X-Rite Device Services v3.0.150 \(Mac Only\)](#)

Kodak continues to maintain software compatibility with these instruments where applicable.

Manufacturer	Device Family	Model	Manufacturer Status	End of Sale	End of Support / Service
X-Rite	i1Pro / i1iO	i1Pro 2 / i1iO 2	Discontinued	–	Jan 31 2025
		i1Pro 3 / i1iO 3	Active	–	Ongoing
	i1iSis Family	i1iSis / i1iSis XL	Discontinued	–	No longer supported
		i1iSis 2 / i1iSis 2 XL	Active until EoS	Aug 21 2025	Before Sept 1 2028
Konica Minolta	MYIRO Series	MYIRO-9	Active until EoS	Dec 31 2025	Mar 31 2031

- Customers should note that manufacturer support timelines are independent from Kodak’s ongoing software support.
- Some instruments have reached or will soon reach End-of-Support from their manufacturers.
- Customers should consult their hardware providers for service, calibration, or replacement options once manufacturer support has ended.
- Kodak will provide additional information regarding potential replacement devices.
