

Installation

Note: As of Pandora 8.0.2, only a full software installer is provided. If you were running a previous version, retain it until you have installed and migrated any resources that you require for the current version.

Installing Pandora 11.6.x on Macintosh computers

1. Log on to your computer as an administrator.
2. Log on to [KODAK Customer Portal](#).
3. On the KODAK Customer Portal home page, select **Knowledge Base > Workflow Software Solutions**.
4. Search for Pandora downloads, and download the Pandora 11.6.x Installer for Macintosh to your workstation.
5. Browse to the location where you stored the installer file: Pandora_11.6.x.dmg.
6. Hold down the Control key as you select the installer, and click **Open**.
Note: Due to security settings, if you double-click the installer, you might receive an error message.
The installer will determine whether the software can be installed.
7. Click **Continue**.
8. In the Introduction dialog box, click **Continue**.
9. Read the License Agreement, click **Continue**, and then click **Agree**.
10. In the Select a Destination dialog box, select a volume.
 - To use the default folder, click **Continue**.
 - To use the displayed volume or another volume, click **Choose Folder**, browse to the location of the folder, and then click **Continue**.
11. Click **Install**.
12. When prompted for the administrator password, enter the password.
13. In the Summary dialog box, click **Close**.
14. When the install is complete, if you were running a prior version of Pandora and did not use a shared location for your resources, copy the content from the **Marks, Job Templates**, and **ShopMap** folders from the prior Pandora version to the respective Pandora 11.6.x folders on your computer.
Important: For all users, review the Pandora 11.6.x DefaultUser.properties file, and update it with any edits that you made in the previous version.
15. License your Pandora 11.6.x software in one of the following ways:
 - If your version of Pandora is integrated with your Prinerger Workflow software, use a [floating license](#) provided by your Workflow software.
Pandora supports floating licenses when integrated with:
 - Kodak Prinerger Workflow software 11.6.x or later
 - If you have the standalone version of Pandora software, use the [software licensing option](#).

Installing Pandora 11.6.x on Windows OS-based computers

1. Log on to your computer as an administrator.
2. Log on to [KODAK Customer Portal](#).
3. On the KODAK Customer Portal home page, select **Knowledge Base > Workflow Software Solutions**.

4. Search for Pandora downloads, and download the Pandora 11.6.x Installer for Windows to your workstation.
5. Browse to the location where you stored the installer file: Pandora_11.6.x_Installer.exe.
6. Select the language in which you want the installer to run and click **OK**.
7. Click **Next**.
8. In the License Agreement dialog box, click **I accept the agreement**, and then click **Next**.
9. In the Select a Destination Location dialog box, click **Next** to use the default folder, or click **Browse** to locate and use a different folder, and then click **OK**.
10. In the Select Additional Tasks dialog box, click **Create a desktop shortcut**, click **Next**, and then click **Install**.
A shortcut to Pandora 11.6.x is created on your desktop.
11. When the install is complete, if you were running a prior version of Pandora and did not use a shared location for your resources, copy the content from the **Marks**, **Job Templates**, and **ShopMap** folders from the prior Pandora version to the respective Pandora 11.6.x folders on your computer.
Important: For all users, review the Pandora 11.6.x DefaultUser.properties file, and update it with any edits that you made in the previous version.
12. License your Pandora 11.6.x software in one of the following ways:
 - If your version of Pandora is integrated with your Prinerger Workflow software, use a [floating license](#) provided by your Workflow software.
Pandora supports floating licenses when integrated with:
 - Kodak Prinerger Workflow software 11.6.x or later
 - If you have the standalone version of Pandora software, use the [software licensing option](#).

Installing Pandora 11.6.x in an Azure environment

1. Log on to your computer as an administrator.
2. Log on to [KODAK Customer Portal](#).
3. On the KODAK Customer Portal home page, select **Knowledge Base > Workflow Software Solutions**.
4. Search for Pandora downloads, and download the Pandora 11.6.x Installer for Windows to your workstation.
5. Browse to the location where you stored the installer file: Pandora_11.6.x_Installer.exe.
6. Select the language in which you want the installer to run and click **OK**.
7. Click **Next**.
8. In the License Agreement dialog box, click **I accept the agreement**, and then click **Next**.
9. In the Select a Destination Location dialog box, click **Next** to use the default folder, and then click **OK**.
10. In the Select Additional Tasks dialog box, click **Create a desktop shortcut**, click **Next**, and then click **Install**.
A shortcut to Pandora 11.6.x is created on your desktop.
11. When the install is complete, if you were running a prior version of Pandora and did not use a shared location for your resources, copy the content from the **Marks**, **Job Templates**, and **ShopMap** folders from the prior Pandora version to the respective Pandora 11.6.x folders on your computer.
Note:

- From the Pandora11.6.x folder, open the Pandora 11.6.x.ini file with Notepad++ (make sure you have **File name extensions** checked in **View**), edit the value in the line of text AzureMode=**2**, save the file. The DefaultUser.properties location will be located to C:\Users\<user>\AppData\Roaming\Kodak\Pandora so that each user references and control their own properties file.
- For all users, review the Pandora 11.6.x DefaultUser.properties file, and update it with any edits that you made in the previous version.

12. License your Pandora 11.6.x software with the [floating license](#) provided by your Workflow software. Pandora 11.6.x supports floating licenses integrated with Kodak Prinergy Workflow software 11.x or later.
