AutoGanging in Preps review

1. You can create as many AutoGang presets as you want. After creating the presets, you can choose which one to use for a layout.
   a. True
   b. False
2. To use the AutoGang feature with hot folders, you must:
   a. Have the correct license
   b. Set up quantity-based folders in a hot folder monitored by Preps
   c. Set the root hot folder on the **AutoGang** tab in the Preferences dialog box
   d. All of the above
3. If Preps automatically creates and prints a ganged layout, you can manually add marks before printing.
   a. True
   b. False

1. You can create as many AutoGang presets as you want. After creating the presets, you can choose which one to use for a layout.
   a. **True**
   b. False
2. To use the AutoGang feature with hot folders, you must:
