

# Preps training wrap-up

## Training wrap-up review

1. When you work with the **Properties** pane:
  - a. You can view and edit the settings of selected job items
  - b. You can select an item in a workspace, summary list, or **Products** list to display its settings
  - c. All applicable panes and lists are dynamically updated with your changes
  - d. All of the above
2. While browsing the fold pattern catalog, you can rotate and flip a pattern and save any changes as a new fold pattern.
  - a. True
  - b. False
3. Layouts that you create but don't save as templates are saved with the job and are added to the **Layouts** pane so that they can be used for other jobs.
  - a. True
  - b. False
4. To access the **Mark Rules Editor**:
  - a. Select **File > Mark Rules**
  - b. Right click in the **Marks** list of the **Resources** pane
  - c. Go to **Preps \Utilities\Preps Mark Rules Editor** and launch **PrepsMarkRulesEditor**
  - d. Select **Resources > Mark Rules Editor**
5. After adding files to Preps, you must autogang all of them at once.
  - a. True
  - b. False
6. When working with advanced layouts, such as come-and-go layouts, you'll mostly use the:
  - a. **Press Runs** view
  - b. **Pages** view
  - c. **Assembly** view
  - d. Any of the above
