Activity 2: Build and use an RBA job rule

Overview

Why you should complete this activity

This activity introduces the RBA user interface and demonstrates how to build and use a basic RBA job rule.

This activity is important because it illustrates how to:

- Create and use an RBA rule set—*Scenario 1*
- Copy and edit an existing rule set—*Scenario 2*

Target Audience

Prepress operators with no RBA experience

Time required

Approximately 15-20 minutes

What you'll learn

After completing this activity, you will know how to perform the following tasks:

- Create an RBA group
- Create a new job rule set
- Select an event
- Select an action
- Use the job rule set
- Disable a rule set
- Copy a rule set
- Edit the copied rule set
- Use the edited rule set
- Manage the job rule set
