

Select action results (Timer flow)

1. On the **Actions** tab, locate the **Refine Input File** action: **Prinergy Actions > Input File Actions > Refine Input File**
2. Drag the **Refine Input File** action to the resulting **Expired** event. This means that the action will occur after the time span of two minutes has expired.
3. Double-click the red line separating **Expired** and **Refine Input File**.
4. In the Rule Parameters Editor, click the red text **(Enter a Value)** in the **Process Template Path** field.
Click the **Edit Value** icon to access the Parameter Value dialog box.
5. In the Parameter Value dialog box, select the process template: **Refine > Refine > 1stRef-Normz**. Click **OK**.
6. In Rule Parameters Editor, click **OK**.
