Activity 2: Review questions 1

1. Describe the purpose of the Rules-Based Automation software.

2. What is an event?

3. What is an action?

4. What is a rule set?

5. Things to think about—based on the type of prepress operations you perform on a regular basis, how could RBA rules create a more streamlined and automated process to meet your prepress needs? What would your rules look like?
    The sample rule sets include some of the more common prepress tasks that could benefit from automation.
