

# About the user interface

- Menu bar
- **Toolbar**
- Workspace: Large blank area when no file is currently open
- Three palettes along the side of the workspace:
  - **Navigator**: Displays a thumbnail image of everything in the currently active display window
  - **Inventory**: Provides information about files, separations, masks, and marks
  - **Info**: Provides information about selected elements in a layout
- **Display window**: Appears within the workspace when you open a TIFF file or layout and shows the following components:
  - Title bar with the name of the displayed file
  - TIFF image or layout with related elements
  - Status bar with information about the displayed file
