

# Removing Prinergy Evo client software

Removing Prinergy Evo Client software and Kodak plug-ins for Adobe Acrobat from a client computer running Mac OS X 10.11 or later

1. Close Prinergy Evo Client software and Adobe Acrobat.
  2. Open the Finder window, and browse to your Prinergy Evo Client software.
  3. Drag the Prinergy Evo folder onto the Trash.
  4. From <harddisk>/Applications/Adobe <version> Professional folder, select **Acrobat <version> Professional**.
  5. Press **Control** plus click.
  6. Select **Show Package Content** from the shortcut menu.
  7. From Contents/Plug-ins/PrinergyEvo folder, select the Kodak plug-ins for Adobe Acrobat.
  8. Drag the plug-in files onto the **Trash**.
  9. From the Desktop **File** menu, select **Empty Trash**.
- The Prinergy Evo Client software and the Kodak plug-ins for Adobe Acrobat are removed.

Removing Prinergy Evo Client software from a Windows-based client computer:

1. Close Prinergy Evo Client software.
2. From the **Start** menu, select **Programs > Prinergy Evo > Uninstall Prinergy Evo Client**. The Prinergy Evo Client InstallShield wizard appears.
3. Complete the instructions in the wizard dialog boxes.
4. Click **Finish**.

Removing Kodak plug-ins for Adobe Acrobat from Windows-based client computers

1. Close Adobe Acrobat.
2. Open the Windows Explorer window, and browse to and select the Prinergy Evo plug-ins for Adobe Acrobat folders.
3. Press **Delete** to move the files to the Recycle bin.
4. On your desktop, double-click the **Recycle bin** icon.
5. Click **Empty Recycle bin**.
